PROFILE

Background Verification and Operations professional with international experience across customer-facing, administrative, and educational roles in India, Pakistan, Afghanistan, and Germany. Detail-oriented, analytically strong, and skilled at managing confidential information. Brings a Bachelor's degree in Information Science & Engineering, with a project background in IoT-based smart security systems and Android application development, currently pursuing a Master's degree in Germany.

WORK EXPERIENCE

Senior Executive – Operations, Startek (for client HireRight) **2024 Feb – 2024 Nov**
Bangalore, India

- Worked as a Background Verification Agent, cross-checking and verifying candidate data to ensure accuracy and authenticity.
- Meticulously examined information provided by candidates, verifying employment history, education, and other credentials.
- Managed confidential information professionally while applying strong attention to detail and analytical skills.
- Improved organisational abilities, critical thinking, and communication skills while reinforcing a commitment to accuracy and integrity.

Call Center Agent, Sampotek Webzone Inc. **2016 Sept – 2016 Nov**
Peshawar, Pakistan

- Acted as a sales agent, promoting company products throughout the region and nationwide.
- Provided feedback on customer queries received via calls and social media.
- Reported to leadership on the needs of new and existing customers and tracked product stock availability.

Teacher, Falcon English Language & Computers Institute **2015 Sept – 2016 Dec**
Peshawar, Pakistan

- Planned, prepared, and delivered English language courses, developing daily lesson plans on grammar, writing skills, and pronunciation.
- Developed supplementary learning resources, including games and classroom activities, using projectors, smart boards, and instructional videos.
- Tracked student attendance and grades, evaluated performance through regular quizzes and tests, and reported progress to programme coordinators.

EDUCATION

Master's Degree **2024 Oct – Present**
Technical University of Chemnitz, Chemnitz, Germany

Bachelor of Technology, Information Science & Engineering (ISE) **2019 Sept – 2023 June**
Jain (Deemed-to-be) University, Bangalore, India | Final Grade: A+

- Thesis: Smart Security System (IoT-based home security device using Raspberry Pi).

Baccalaureate Certificate, General Field of Study **2015 Sept – 2017 Sept**
Burhan High School, Kabul, Afghanistan | Final Grade: 97.56%

- Twice honoured with Student of the Month awards, achieving a grade of A+.

- **Automotive & Embedded Skills:**
  - AUTOSAR
  - Embedded C
  - Advanced Driver Assistance Systems (ADAS)
  - ISO 26262 Functional Safety
  - Automotive Cybersecurity
- **Web Technologies:**
  - HTML
  - CSS
- **Programming Skills:**
  - Java (Android Studio)
  - Python (OpenCV)
- **AI Tools:**
  - Generative AI Fundamentals
- **Tools:**
  - Microsoft Word
  - Microsoft Excel
  - Canva (basic graphic design)

CERTIFICATES

- Embedded C and AUTOSAR Overview (Udemy) — 10.5 hours, June 2026
- Advanced Driver Assistance Systems – ADAS (Udemy) — 9 hours, June 2026
- Cybersecurity – Automotive (Udemy) — 8 hours, May 2026
- ISO 26262 Crash Course: Functional Safety Mastery (Udemy) — 4 hours, May 2026
- What Is Generative AI? (LinkedIn Learning) — 1 hour 3 minutes, 2.00 CPE Credits (NASBA), May 2026

PROJECTS

Smart Security System *(IoT, Raspberry Pi 3, Python, OpenCV)* **2023 Jan – 2023 July**

- Engineered a Python-based IoT smart security system using a Raspberry Pi 3, PIR motion sensor, and USB webcam to detect movement and automatically capture images.
- Built an automated alert pipeline that uploads captured images to Google Cloud and notifies the homeowner via email in real time.
- Implemented the image capture and email-alert logic using the OpenCV library over the TCP/IP stack for reliable, low-cost remote home monitoring.

Medital *(Android Studio, Java)* **2022 Oct – 2023 Jan**

- Developed a patient-focused Android application connecting users to nearby hospitals for appointment booking.
- Implemented features for efficient time management and an emergency blood bank locator to support urgent patient needs.

VOLUNTEER WORK

Researcher & Head of Design, Scolar Kabul **2021 June – Present**
Kabul, Afghanistan

- Researched Afghanistan's cultural heritage and scientific achievements, connecting them with those of other SCO (Shanghai Cooperation Organisation) countries.
- Led design efforts using visual media, publications, and exhibitions to communicate cultural narratives and foster cross-border dialogue.

Volunteer, Emerging Entrepreneurs' Summit (ALPHA) **2019 Jan – 2019 Apr**
Kabul, Afghanistan

- Supported the organisation of a summit connecting aspiring entrepreneurs with strategies, tools, and networking opportunities.

Social Service Project Member, Afghan Progressive Thinking (APT) **2018 Oct – 2019 Feb**
Kabul, Afghanistan

- Distributed clothing to immigrants as part of a community social service initiative.

LANGUAGES

Pashto (Native), Dari/Persian (Native), English (C1), Urdu (C1), German (A2)

HOBBIES

Swimming, Reading books, Traveling

HONOURS & AWARDS
